European Meeting 2026

Lisbon, 29-30 October

All-on-4® Center of Excellence European Meeting 2026

Join Europe's leading All-on-4® clinicians, surgeons, prosthodontists, technicians, and educators in Lisbon for two immersive days of advanced clinical education and peer exchange. Through thought-provoking debates, evidence-based discussions, the latest scientific publications, and diverse clinical perspectives, delegates will explore cutting-edge approaches to full-arch rehabilitation, digital workflows, surgical protocols, prosthetic decision-making, peri-implant health, and long-term treatment success.

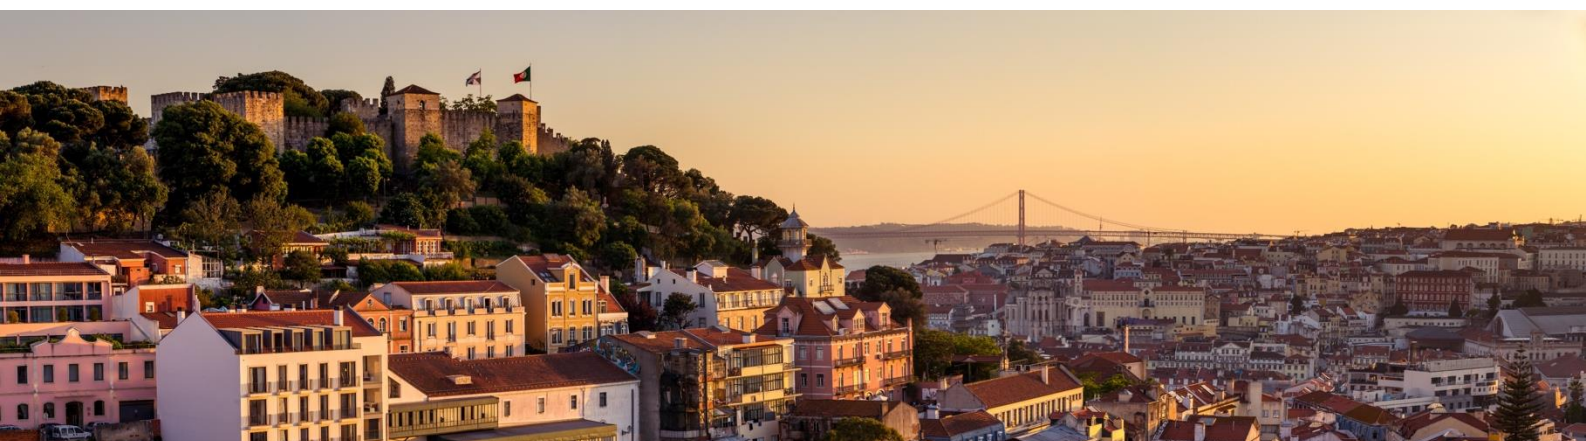

AGENDA

29 October | Day 1

13.00	Registration & Stand-up buffet lunch
14.00	Where We Came From: Reflecting on the All-on-4® Journey - Paulo Malo
14.30	Where we are going - Tinne van Delm & Philipp Lienemann-Rissi
15.00	Break
15.30	Breakout sessions
18.00	End of day 1
19.00	VIP dinner / Country dinners

30 October | Day 2

09.30	Welcome back
10.00	Plenary sessions
18.00	End of day 2
20.30	Social event @ SUD Lisboa Hall

29 October | DAY 1

Breakout sessions

15.30 BREAKOUT SESSIONS

18.00

(coffee break at 16.30)

Breakout 1 – MAINTENANCE

Thread Lightly! Instrumentation of implant collars, threads and implant supported restorations as per S3 level Peri-Implant guidelines

Claire McCarthy

This hands-on workshop provides practical guidance on safe, effective implant instrumentation in line with the latest S3 guidelines. Participants will explore implant decontamination, peri-implant assessment, biofilm management, and non-surgical surface decontamination, while gaining hands-on experience with implant-specific instruments and oral hygiene strategies to support long-term peri-implant health.

Breakout 2 – PATIENT ACCEPTANCE

From Interest to Yes: Increasing All-on-4® Treatment Acceptance with an Ethical, Repeatable Consultation Playbook

Alexandra Marques & Andreas Dorow

This interactive workshop provides practical, patient-centred strategies to increase treatment acceptance for the All-on-4® concept. Through real consultation scenarios and case examples, participants will learn how to communicate value, address common patient concerns, align expectations with outcomes, and implement a repeatable framework that supports ethical case acceptance and long-term patient satisfaction.

Breakout 3 – DIGITAL WORKFLOW

Data, Design, Deliver: Streamlining Digital All-on-4® with Photogrammetry & 3D Printing

Didier Delmas & DDS

Dr. Didier Delmas will guide participants through the Digital All-on-4® workflow, from data capture and treatment planning to guided surgery and final delivery. The session will explore how digital technologies—including X-Guide®, photogrammetry, and 3D printing—can enhance precision, predictability, and esthetic outcomes, while providing practical tips for streamlining workflows, improving team communication, and achieving consistent results in full-arch rehabilitation.

Breakout 4 – MANAGEMENT & COMMUNICATION

From Chairside to Boardroom: The Dentist as a Business Leader

Gonçalo Seguro Dias

Led by Dr. Gonçalo Seguro Dias, this practical workshop explores how strategic thinking, efficient systems, and data-driven decision making can transform a dental practice. Participants will gain practical tools to optimize processes, enhance patient experience, improve business performance, and identify the key drivers of a healthy, sustainable clinic.

18.00 **End of the day**

19.00 **VIP Dinner / Country Dinners**

30 October | DAY 2

Plenary session

9.30 **Welcome back | Edentulous patient journey in 2026**
Paulo Malo

No Easy Answers: Interactive Debate on Full-Arch Prosthetic Decision-Making
Susan Tanner & Daniël Vos

10.00 In this dynamic and highly interactive session, Susan Tanner and Daniël Vos bring prosthetic decision-making to life through real clinical cases and open debate. Through a lively exchange, they question and challenge each other's perspectives, exploring implant design choice, prosthodontically driven implant placement, material selection, complication management, and long-term treatment outcomes in full-arch rehabilitation. Blending evidence-based science with extensive clinical experience, the session reflects the realities of everyday practice, where decisions are rarely straightforward. This engaging format provides honest insights into differing clinical approaches, helping clinicians confidently navigate complex cases while balancing predictability, efficiency, and patient-centered care in their daily practice.

11.15 **Break**

Digital All-on-4: Where Clinical Excellence Meets Technical Precision
Diogo Firmino, Damir Jelušić & Ivan Čatović

11.45 Discover how collaboration between clinicians and technicians transforms the Digital All-on-4® workflow into predictable, efficient, and highly aesthetic treatment outcomes. Through real clinical cases, Dr. Damir Jelušić, Dr. Ivan Čatović, and dental technician Diogo Firmino will demonstrate how digital tools—including photogrammetry, 3D planning, CAD/CAM, and 3D printing—enhance precision, streamline workflows, and improve patient satisfaction. This session highlights the power of teamwork in delivering successful full-arch rehabilitations.

13.30 **Lunch**

Peri-Implant Health in Full-Arch Rehabilitation: What Really Matters?
Fiona McKillop, Francesco Giachi Carù & Claire McCarthy

14.30 Long-term success in full-arch rehabilitation depends on more than surgical and prosthetic excellence—it requires effective maintenance and prevention. In this session, Dr. Fiona McKillop, Dr. Claire McCarthy, and Dr. Francesco Giachi Carù will explore peri-implant disease prevention, early diagnosis, and evidence-based maintenance protocols, while sharing practical strategies for biofilm management, patient education, and long-term implant health.

16.15 **Break**

From Classification to Execution: Managing Complex Edentulous Cases with Advanced Surgical Strategies
João Carames, Miguel Gonzalez, Iñaki Mayo & Hubert Trzepatowski

16.45 This session explores a structured approach to treating edentulous patients, from diagnosis and case selection to the management of complex anatomical challenges. Through real clinical cases, the speakers will share advanced surgical strategies for patients with severe bone loss and demonstrate how dynamic navigation can improve precision, accuracy, and predictability in pterygoid implant placement.

18:00 **End of the day**

20:30 **Social event @ SUD Lisboa Hall**

Key speakers | Plenary session

Dr. Susan Tanner

Dr. Susan Tanner is a Specialist Prosthodontist and founding partner of the Dawood & Tanner multidisciplinary practice in London. With over 25 years of experience in implant dentistry, she is highly regarded for her expertise in complex implant restorations, including full-arch rehabilitation and the management of severely atrophic jaws.

Dr. Daniel Vos

Dr. Daniel Vos is a highly respected dentist-implantologist based in the Netherlands, renowned for his expertise in full-arch rehabilitation and advanced implant dentistry. He has been at the forefront of the All-on-4® treatment concept since 2015, delivering life-changing outcomes for patients through immediate-function protocols and patient-centred care. Dr Vos leads the innovative Vos Centre for Oral Healthcare, combining multidisciplinary excellence with cutting-edge technology. His commitment to clinical innovation and education has been internationally recognised, including prestigious All-on-4 awards. A passionate advocate for excellence, he continues to advance digital workflows and elevate standards in modern implant dentistry.

Dr. Damir Jelušić

Dr. Damir Jelušić, DMD, PhD, is a Croatian specialist in periodontology and implantology with more than 25 years of clinical experience. He earned his dental degree in 1995, obtained certification in dental implantology from the Brånemark Center, completed specialist training in periodontology, and received his PhD from the University of Zagreb, focusing on biomaterials and implant dentistry. Founder of Institute Dentalna Jelušić in Opatija, he is internationally recognised for his expertise in full-arch rehabilitation, digital workflows, and regenerative implant therapy. As a lecturer and All-on-4® Center of Excellence leader, he regularly contributes to global education and innovation in implant dentistry.

Dr. Ivan Čatović

Dr. Ivan Čatović is a Croatian dentist and periodontist specialising in implantology and full-arch rehabilitation. He graduated from the University of Rijeka in 2015 and completed a master's degree in dental implantology in Rome. He further specialised in periodontology at the University of Zagreb, focusing on regenerative periodontal surgery and mucogingival techniques. A DSD Master, he integrates advanced digital workflows into complex aesthetic and functional rehabilitations. Based in Pula, he works in private practice and lectures internationally on minimally invasive implantology, periodontal regeneration, and fully digital full-arch treatment concepts.

Key speakers | Plenary session

Dr. Fiona McKillop

Dr. Fiona McKillop is a highly experienced specialist in periodontology with over 20 years of clinical practice focused on gum health, implant dentistry, and regenerative techniques. She qualified from the University of Glasgow and completed her Master's in Periodontics at Guy's Hospital before holding the position of Assistant Clinical Professor of Surgical Sciences at New York University. Based in London at Dawood & Tanner Specialist Dental Practice, she leads complex multidisciplinary treatments, including implant site development and full-arch rehabilitation. An internationally recognised speaker, she is committed to advancing minimally invasive, evidence-based implant and periodontal care.

Dr. Francesco Giachi Carù

Dr. Francesco Giachi Carù is an Italian dentist with expertise in oral surgery, implantology, and digital treatment protocols. He graduated with honours from the University of Milan in 2012 and later specialised in Orthodontics at the same institution. His clinical training includes advanced courses in implant surgery, periodontology, and endodontics, alongside international certification in implant dentistry. He is an active lecturer and faculty member at the Lake Como Institute, contributing to advanced implant education and research. Based in Milan, his practice focuses on multidisciplinary implant rehabilitation and evidence-based clinical excellence.

Diogo Firmino

Diogo Firmino is a highly skilled dental technician and digital dental specialist with a strong focus on implant-supported restorations and full-arch workflows. Graduating in Dental Prosthetics from the University of Lisbon in 2011, he has developed extensive expertise in CAD/CAM technologies, intraoral scanning, and 3D printing. Since 2012, he has been working with digital dentistry, collaborating with leading laboratories, brands, and universities to advance innovative protocols. Based in Palma de Mallorca, he leads his own digital laboratory, delivering highly aesthetic, precise prosthetic solutions and contributing to education and development within modern implant dentistry.

Prof. João Caramês

Professor João Caramês is a globally recognised Portuguese dentist and implantologist with over 30 years of clinical, academic, and research experience in oral surgery and implant dentistry. He is Dean of the Faculty of Dental Medicine at the University of Lisbon and Founder and Director of the Implantology Institute in Lisbon. A visiting professor at New York University, he has contributed extensively to education, research, and innovation in full-arch rehabilitation. Having placed more than 50,000 implants, he is internationally renowned for advancing evidence-based protocols and personalised treatment concepts in implant dentistry.

Key speakers | Breakout sessions

Dr. Hubert Trzepatowski

Dr. Hubert Trzepatowski is a Polish dentist and implantologist specialising in full-arch rehabilitation and advanced prosthetic dentistry. A graduate of the Jagiellonian University in Kraków, he further trained in dental surgery and prosthetics at the 5th Military Clinical Hospital. He is the founder and owner of HALdent Clinic, a state-of-the-art multidisciplinary centre integrating implantology, prosthetics, and digital workflows. Internationally recognised as a Key Expert and certified lecturer in the All-on-4® concept, he contributes extensively to education and clinical innovation in implant dentistry.

Claire McCarthy

Claire McCarthy is a Clinical Research Fellow and Clinical Teacher in Periodontology at King's College London, Faculty of Dentistry, Oral and Craniofacial Sciences, based at Guy's Hospital. She graduated from Trinity College Dublin in 2000 and worked in specialist prosthodontic practice before holding teaching posts at the University of Sheffield, KCL and UCL. Alongside teaching, she contributed to major clinical trials at Queen Mary University and completed a Master's in Higher and Professional Education at UCL. Claire has taught undergraduate and postgraduate periodontology since 2003 and led BDS1 and BDS2 periodontology at KCL for eight years. Her research focuses on peri implant disease, aerosol reduction and ultrasonic instrumentation. She completed a PhD in Clinical Dentistry at KCL, receiving the KCL Outstanding Thesis Award, and holds multiple national leadership roles in dental education.

Dr. Alexandra Marques

Dr. Alexandra Marques is an implant dentist and oral surgeon with advanced postgraduate training in Endodontics and Surgery, with a specialization in Apical Surgery, and a Master's degree in Implantology. She has also completed postgraduate diplomas in Advanced Surgery and Maxillofacial Osteogenic Distraction, along with further training in dental aesthetics. Dr Marques is an international speaker and educator with a strong clinical focus on full-arch rehabilitation using the All-on-4® treatment concept. She is actively involved in advanced education programmes and Centres of Excellence initiatives, with particular expertise in ethical case selection, patient communication, and long-term treatment success in complex full-arch cases.

Dr. Dr. Andreas Dorow

Dr. Dr. Andreas Dorow is the Founder, Chief Physician and Medical Director of the Dorow Clinic. As a board-certified Oral and Maxillofacial Surgeon with additional qualifications in Plastic Surgery and Oral Surgery, he combines medical, surgical and dental expertise. His professional focus includes implantology, oral and maxillofacial surgery, reconstructive and aesthetic facial surgery, and interdisciplinary treatment concepts. Dr. Dorow is an internationally active speaker and educator who regularly contributes to national and international scientific congresses.

Key speakers | Breakout sessions

Dr. Didier Delmas

Dr. Didier Delmas is a highly respected implant dentist based in Alicante, Spain, and an internationally recognised expert in digital implant dentistry and full-arch rehabilitation. He graduated in Dentistry from the Universidad Alfonso X El Sabio (Madrid) and holds postgraduate qualifications in Oral Implantology and Implant Prosthesis (European Implantology Forum – FIE), as well as a postgraduate degree in Orthodontics (European Centre of Orthodontics). Dr Delmas is an All-on-4® digital workflow ambassador, lectures widely on guided and navigated surgery, and integrates advanced digital technologies into complex full-arch treatments within his multidisciplinary private practice.

Dr. Iñaki Mayo

Dr. Iñaki Mayo is a Spanish dentist specialising in implantology, oral surgery, and advanced bone regeneration techniques. He graduated in Dentistry from the Universitat Internacional de Catalunya and completed postgraduate training in prosthodontics, implant surgery, and periodontology at leading institutions including the University of Seville and Complutense University of Madrid. He is Clinical Director of Mayo Clínica Dental in Barcelona and an international lecturer on advanced implant and full-arch rehabilitation protocols. With extensive experience in zygomatic implants and high-volume surgical practice, he focuses on complex cases and innovative regenerative solutions in modern implant dentistry.

Dr. Miguel Gonzalez

Dr. Miguel González is a Spanish dentist specialising in implantology, periodontology, and full-arch rehabilitation. He graduated from the University of Oviedo in 2002 and later achieved a Doctorate in Dentistry with honours. His extensive training includes a Diploma in Implant Dentistry from Göteborg University and advanced clinical education at UCLA. With international clinical experience across Europe and the Americas, he focuses on implant surgery, digital workflows, and aesthetic outcomes. He directs postgraduate implantology programmes and lectures globally, contributing to the advancement of modern implant dentistry and evidence-based full-arch treatment concepts.

Dr. Gonçalo Seguro Dias

Dr. Gonçalo Seguro Dias is a Portuguese implant dentist and Specialist in Oral Surgery (Ordem dos Médicos Dentistas). Managing Partner of GSD Dental Clinics, he has over 20 years' experience in advanced implantology and full-arch rehabilitation and is a recognised educator and clinician in the All-on-4® treatment concept.
