

The Mentor Directory.

Connecting UK clinicians with leading implant mentors

Welcome to the Nobel Biocare Mentor Directory

Implant dentistry continues to thrive as one of the most rewarding areas of private practice in the UK. As more clinicians embrace implant treatment, ongoing guidance and support are key to building confidence and achieving predictable results.

The Nobel Biocare Mentor Directory connects you with experienced UK implant clinicians who share our passion for excellence in education and patient care. Each mentor offers practical insight, clinical support and personalised feedback to help you integrate implants seamlessly into your practice.

Whether you've just completed Nobel Biocare training or are expanding your implant services, partnering with a mentor ensures you're supported every step of the way.

Together, we're building a network of confident, skilled clinicians delivering exceptional outcomes for their patients — and shaping the future of implant dentistry in the UK.

How it works

If you have any problems finding a mentor in your local area, please contact the UK and Ireland Head Office on **+44 (0)208 756 3300** or email us at **education.uk@nobelbiocare.com**.

Alternatively, you may contact your local sales representative who would be happy to help you with your search.

Your professional development

Nobel Biocare is committed to your professional development and confidence by offering training and mentoring opportunities geared towards your professional aspirations.

For more information on upcoming events and courses, please contact us on **+44 (0)208 756 3300** or visit **www.nobelbiocare.com**

Bone grafting

Hi, I am George, welcome to my practice Circus House Dental and Implant Centre in Bath.

I have dedicated my practice to provide high quality dentistry within a personal and caring environment and I have an excellent team to support me with this. In my practice I concentrate most of my time to provide dental implants and complex, advanced dental treatments. I have completed studies in this field in the world-renowned University of Gothenburg, Branemark Clinic in Sweden as well as other prestigious universities like the University in Bern, Switzerland, Tübingen and Frankfurt in Germany.

I have placed and restored well over 5,000 implants and I am experienced in advanced implant techniques, such as bone grafting and sinus grafts if needed. Over the past 20 years I have been receiving referrals from other dentists from several Practices across the south west of England.

Richard Brookshaw

BDS MMedSci (Oral Surgery) MPhil (Oral and Maxillofacial Surgery)
Dip Imp Dent RCS Ed (practice limited to implant dentistry)

Richard Brookshaw is a highly skilled dental implant surgeon. He has placed more than 5000 implants and is one of only a handful of implant surgeons nationwide who can carry out implant surgery in patients with extreme bone loss, using specifically designed zygomatic implants.

Richard exclusively practises all aspects of implant dentistry, including hard and soft tissue augmentation, sinus grafting and same day implants.

Boota Ubhi

BDS, MDentSci, MRD RCS (Eng), FDS RCS (Edin)

Hello I'm Boota Singh Ubhi, and I lead a highly skilled and specialised team committed to providing exceptional care in periodontics, implantology, and advanced restorative dentistry. Our reputation is built on consistently exceeding patient expectations, and each member of our team actively contributes to postgraduate education.

For over twenty five years as an Specialist in Periodontics, I have been delivering lectures to dental students and practicing dentists, covering a range of topics in both Soft Tissue Surgery and Management of Peri-implantitis . Our courses receive outstanding feedback and are the culmination of decades of experience and research. Renowned for their hands-on approach, these programs are highly valued for their practical application, allowing participants to seamlessly implement the knowledge gained during the course.

Treatment planning with DTX

With a career spanning over two decades, Lau's expertise encompasses full mouth rehabilitation, advanced restorative dentistry, and dental implants. His meticulous approach, combined with cutting-edge technology, ensures patients receive the highest standard of care tailored to their individual needs.

After graduating from the University of Leeds in 1995, Lau honed his skills in general and NHS dentistry before establishing Enhance Dental Centre in 2008. Designed as a state-of-the-art facility, Enhance now boasts ten surgeries, a dedicated oral surgery and implant suite, and an on-site research and training centre.

Lau has performed hundreds of dental implant procedures, ranging from single-tooth replacements to full arch restorations. His approach to full mouth rehabilitation combines advanced diagnostics, digital workflows, and a deep understanding of functional and aesthetic principles to deliver life-changing results.

Committed to advancing the field of dentistry, Lau holds Membership in Implant Dentistry from the Royal College of Surgeons of Edinburgh.

Wail Girgis

BDS MSc

Wail is a Clinical Director at Devonshire House and a Specialist Prosthodontist. He provides general dental care for a broad patient base and, as a Specialist Prosthodontist, is especially skilled in the replacement of missing teeth, the restoration of natural teeth and in complicated and simple restorations of the whole mouth.

Wail trained at King's College Hospital Dental School, London and went on to complete an MSc degree in Conservative Dentistry at the Eastman Dental Hospital, London where he taught thereafter as a clinical lecturer. Wail went on to teach at the International Centre for Excellence in Dentistry on the Implant Certificate Course. He is a member of the International Team for Implantology for whom he is a clinical lecturer. Wail joined Devonshire House in 1998 and is now a Clinical Director as well as a Clinical Supervisor for the MSc in Implantology for VSS Academy, part of The University of Central Lancashire.

He is also a Consultant in Prosthodontics and Restorative Dentistry at the Eastman Dental Hospital supervising surgery.

Billal Arshad

BDS Msc Fixed Removable Pros.

I am a UK-qualified restorative and implant dentist, having graduated from Manchester, and I currently practise in Central Manchester as well as at Harrods, London. I hold an MSc in Fixed and Removable Prosthodontics and have dedicated my career to advanced restorative and implant dentistry.

For over a decade, I have been restoring and placing Nobel Biocare implants, with a strong focus on precision, long-term function, and aesthetic excellence. My clinical work is underpinned by a comprehensive understanding of occlusion, prosthodontic principles, and full-arch rehabilitation.

Alongside clinical practice, I am a mentor and educator. I run a restorative and implant diploma in the North West, where I have trained and supported dentists at various stages of their careers. Teaching and mentoring have been central to my professional life, and I am well known for a structured, supportive, and clinically grounded approach.

My passion lies in helping clinicians build confidence, refine their skills, and deliver predictable, high-quality restorative and implant outcomes in everyday practice

Manish Patel

BDS (ULond), MFDSRCS (Eng), MCLinDent (Prosthodontics), MRDRCS (Eng), Specialist in Prosthodontics

Manish Patel graduated from King's College Dental Institute in 1999. He then furthered his training as a house officer in oral and maxillofacial surgery and restorative dentistry. He has previously worked in general practice and gained his Membership to the Faculty of Dental Surgery in 2002. Following this, he commenced a four year Specialist in Prosthodontics programme at the Eastman Dental Institute (UCL).

In 2008 he received a Masters Degree in Clinical Dentistry in Fixed and Removable Prosthodontics with distinction and the UCL Dental School Commemorative Prize in Prosthodontics for clinical and academic excellence. He completed the Membership in Restorative Dentistry examination by the Royal College of Surgeons of England in 2009 and was entered into the Prosthodontic Specialist List.

Manish has continued to work at the Eastman Dental Institute as a part-time Senior Clinical Teaching Fellow in the Prosthodontics Unit. Working alongside experienced clinical, academic and laboratory staff, he is involved in teaching post-graduate dentists on the various restorative dentistry training programmes.

Amit Mistry

BDS, MFDS RCS Eng, MSc Imp Dent, M Imp Dent RCS Ed,
Fellow CGDent

Dr Amit Mistry graduated from the University of Manchester in 2001, and he has experience in a wide variety of specialities within dentistry. Dr Mistry has focused these experiences particularly during his maxillo-facial surgery training, which has enabled him to complete comprehensive post graduate training in dental implantology, with a particular interest in implant placement and reconstructive surgery.

Dr Mistry obtained a Master's degree in Dental implantology with distinction and his research was based on the accuracy of guided surgery to avoid damaging vital structures, and to reduce biological and technical complications, which has been published. Dr Mistry has successfully obtained the prestigious Royal College of Surgeons of Edinburgh Diploma in Dental Implantology. Dr Mistry's clinical interest is full mouth rehabilitation with dental implants. He utilises digital planning and placement guides to accurately place implants for FP1 and FP3 cases using a combination of regular dental implants and zygomatic dental implants as indicated. Dr Mistry enjoys treating challenging cases, especially revision of failed full mouth rehabilitation, using bone reconstruction and extra-maxillary implants.

Dr Mistry is involved in education and is on the board and trustee of the Association of Dental Implantology UK and runs courses teaching and mentoring other dentists.

Dev Patel

BDS (Lond), LDSRCS (Eng), MFGDP (UK), FDSRCS (Eng),
M.ClinDent (Prosthodontics)

Dr Dev Patel is Associate Clinical Professor and Director of Implant Programmes at the UCL Eastman Dental Institute. A Specialist in Prosthodontics and Oral Surgery, he holds dual specialist recognition, a distinction achieved by only a small number of clinicians in the UK.

He graduated from King's College London in 1991 and completed his postgraduate training in Prosthodontics with Distinction at the Eastman Dental Institute in 2000. Dr Patel has played a leading role in shaping postgraduate education in implant dentistry. He created and introduced the Diploma in Implant Dentistry nearly two decades ago and more recently developed and launched the MSc in Implant Dentistry. His academic and clinical expertise covers both the surgical and prosthodontic disciplines of implant dentistry.

He also serves as Chair of Examiners for Implant, Aesthetic and Sports Dentistry programmes and is a Partner at Dental Rooms, a multi-award-winning multidisciplinary specialist practice in Wimbledon, South West London.

Dr Patel lectures extensively in the UK and internationally, and regularly hosts study clubs supporting postgraduate learning and professional development.

With 28 years in general dentistry and 19 years as an implant dentist, I'll help you to see the "whole story"—diagnosing full-mouth rehabilitations, blending artistry with science. Which means you'll develop comprehensive treatment planning skills, so you can spot and convert more high-value cases worth £20,000+ that others might miss.

Working with me will fast-track your experience in implant dentistry because I will show you the most current skills and techniques that you will benefit from for each case. Which means you'll avoid costly mistakes and lengthy learning curves, so you can save thousands of pounds in training while building your implant practice faster and more profitably. You will benefit from my experience as a MSc clinical mentor for UCLan university as we will follow the same organised approach, but this will be bespoke for your needs. Which means you get university-quality education tailored specifically to your goals, so you can progress at your ideal pace while focusing on the skills that matter most to your practice growth.

This is more than mentorship. It's a chance to grow into the clinician your patients need—one who combines experience with empathy, technology with touch, and skill with heart. Which means you'll become not just a better implant dentist, but a more complete and confident clinician, so you can build the thriving, profitable practice you've always dreamed of.

Tariq Ali

BDS (Glas) MFDS RCPS (Glas) MJDF RCS DiplImpDent RCS (Eng)

Tariq Ali is an implant dentist, educator, and clinical mentor with extensive experience in implant dentistry and postgraduate training. He is the Course Director of a postgraduate Dental Implant Diploma (Level 11) and provides structured implant mentoring aligned with contemporary best practice.

Tariq holds an Advanced Certificate in Clinical Education RCPS(Glas), reflecting formal training in clinical teaching, assessment, and mentorship. His mentoring approach is evidence-based and focuses on safe case selection, risk assessment, restorative-led implant planning, and reflective case review. Mentoring is delivered through structured logbook supervision, case-based discussion, and treatment planning support.

Clinically, Tariq has a strong interest in surgical aspects of implant dentistry and digitally driven implant dentistry, with navigated surgical workflows using X guide. He places particular emphasis on patient safety, ethical decision-making, and predictable long-term outcomes.

Tariq is committed to supporting clinicians in developing confidence, competence, and autonomy in implant dentistry while maintaining the highest standards of governance and patient care.

Patrick Byrne

BDS NUI, MSc U Lond, FDS RCS Ed, FFD RCSI

Private practice limited to Periodontology and Oral Surgery (including Dental Implants) since 1991. Part Time Lecturer in Periodontology Dublin Dental University Hospital and Assistant Professor Trinity College Dublin (part Time).

I have been involved in the surgical side of Dental Implants since 1991 undertaking various training courses in the Branemark Clinic Gothenburg amongst many other courses right up to the present.

I have enjoyed a long term collaboration with Dr Patrick Palacci and I work with many Colleagues from a multidisciplinary perspective in Dentistry.

Robert Bowe

BA, BDentSc, MFDRCSI

Specialisms

Placing implants

All-on-4[®] digital workflow

Dr. Robert Bowe, BA, BDentSc, MFDRCSI graduated as a dentist from Trinity College Dublin in 2003, following which he worked in Paediatric and General Dentistry in Ireland. He subsequently pursued postgraduate training in Oral and Maxillofacial Surgery (Mouth, Jaw and Face Surgery) and held a number of posts in the UK and Ireland, including the University Hospital of Wales Cardiff and Prince Charles Hospital Merthyr Tydfil.

Dr. Bowe obtained postgraduate membership examinations from the Royal College of Surgeons in Ireland in 2006 and was appointed Registrar in Mouth, Jaw and Face Surgery in Limerick Regional Hospital, spending 3 years working in hospital Dentistry and Surgery.

In January 2012 Dr. Bowe carried out Ireland's first All-on-4[®] (Teeth In A Day) procedure; he has completed this treatment for hundreds of patients since and is a certified All-on-4 trainer.

Dr. Bowe's research interests include Patient Reported Experience Measures (PREMS) and Patient Reported Outcome Measures (PROMS), and he is currently conducting a research study in this area.

Ivo Raitchev

BDS (Lond) 2008, MFDS RCS(Ed) 2010, Cert. Implants 2013 SAAD
cert. Sedationist

Dr Ivo Raitchev is the Clinical Director at Broad Street Dental in St Helier, Jersey, where he leads a team delivering high-quality dental care with a focus on modern, patient-centred treatments. He graduated from the prestigious Guy's, King's & St Thomas's Dental Institute in London in 2008, earning the A.H.R. Rowe 1st Prize for excellence in restorative dentistry early in his career. Since then, he has spent nearly two decades honing his skills through extensive postgraduate training, including membership of the Royal College of Surgeons of Edinburgh, specialist certifications in dental implants, laser dentistry, and sedation dentistry.

Dr Raitchev has particular interests in cosmetic dentistry, keyhole 3D-guided dental implants, laser-assisted procedures, and sedation dentistry. His experience includes over 11 years of laser dentistry, performing minimally invasive treatments with reduced discomfort and faster healing. He also uses advanced digital technology, such as CAD/CAM and 3D imaging, to plan and execute precise implant and smile design work. Growing up around dental technology helped him develop a clinician-ceramist perspective, giving him a unique blend of technical precision and aesthetic sensitivity in complex restorative cases. Dr Raitchev practices both in Jersey and in London, offering tailored treatment plans for patients seeking general, aesthetic, implant, or advanced laser-assisted dental care.
